

# Keep your line running with the right spare parts strategy

When every minute counts, spare parts management can drive—or delay—performance. What matters is choosing the right path.

**Two approaches, one goal:  
sourcing spare parts the way your business needs.**

## Sourcing spare parts takes too long

Skip approvals and quotes—order directly with live stock and pricing.

## Order in minutes, anytime

Access the Webshop 24/7 and buy parts in just a few clicks.

## Simplify and save

Get full ERP integration\*, live tracking, and a 3% discount.

*\*Upon technical evaluation*

COESIA WEBSHOP  
STOCK AGREEMENTS

## Running out of parts costs you time—and money

Shortages cause downtime, delays, and higher costs.

## Plan ahead, stay stocked

Key parts are stored locally and shipped in 24–72 hours.

## Optimize performance, minimize risk

Cut inventory costs with fixed pricing and annual planning.

**Choose the sourcing model that works for you - without compromise**

Empower your business with equipment that never stops.
